## PASS HOCKEY LEAGUE RE-ORGANIZED

### Keen Rivalry This Season

Intermediate Hockey With Four Teams Entered in League Promises Good Winter Program for the Pass Towns.

Walton, Purvis and Angelo Gentile represented Coleman Canadian hockey club at the league meeting held in Blairmore on Friday evening last. Four teams are entered, Bellevue, Hillcrest, Blairmore and Coleman, and a schedule of 24 games has been arranged, of which further particulars and dates will be announced later in The Journal.

Re-organization of the Crow's Nest Pass Intermediate Hockey league was proceeded with, and the following is from the minutes:

Upon motion, duly moved and seconded, the following were unanimously elected to fill the positions enumerated: Honorary Presidents, Geo. Kellock, O. E. S. Whiteside, G. A. Vissac, Wm. Stevenson, President, A. Robert Gray; Vice-President, A. Barbour; Sec.-Treas., Jos. McDougall; executive committee to be composed of the president, vice-president, Mr. Porter, W. S. Purvis, Wm. Chappell Jr.

It was recommended that the admission charge for league games be 35c for adults and 15c for children of school age.

Club colors as follows: Hillcrest, red and white; Bellevue, green and white; Blairmore, orange and black; Coleman, not decided. Each club playing in the league must affiliate with the Alberta Amateur Hockey association.

All league games will start at 8 p. m. unless otherwise agreed upon by the two teams concerned.

#### ST. ALBAN'S CHURCH, COLEMAN

Choir practice, Friday, 7:00 p. m. Sunday, Dec. 9, 2:30 p. m., Sunday School, 7:00 p. m., Evensong.

Monday, Sunday school teachers please meet at the rectory 7:30 p. m.

Thanks are due to the following for the help they have given towards making the play a success: G. Derbyshire for the lighting effects; the young men who helped to get the opera house warm and to those who so kindly lent heaters, etc.; Mrs. Borrow for the paintmaking way in which she directed the play; the orchestra and to many others behind the scenes who helped to bring the "Wishing Cap" to a most successful conclusion.

Jeanne Dusseau, Canada's great lyric soprano, who will, at the Festival of Sea Music to be held in Vancouver, January 22-26, interpret many of the songs of the sea, which are those of women. Madame Dusseau will render some of the sea songs which are still alive in the Islands.

### Local Man Has Fine Homing Pigeons

Brought Them From Scotland During Summer as Nucleus of Flock in Coleman.

When John Anderson arrived from Fifehire in August, he brought with him five pairs of homing pigeons of more than ordinary interest and value. Two pairs have flown twice from France to Scotland in the international race under the Scottish National Association, the flight being a distance of 500 miles. He has some two-year-old pigeons which have made flights of 400 miles.

Mr. Anderson, who is an ex-soldier of the famous Scots Guards, during the war was training pigeons for the Royal Air Force at Portsmouth and Southampton, and he can relate some thrilling stories of the work performed by homing pigeons as carriers of messages from airplanes and ships. As an instance of how men's lives were saved by pigeons under his care, he tells of a pigeon arriving at its loft early one morning whilst he was awaiting breakfast, bearing a message of an officer being adrift in a seaplane a considerable distance off the coast, and the despatch of a ship to pick him up. When the officer was brought to land, he came to the loft at the first opportunity, with some friends, and asked to be shown the pigeon which had saved his life. "It was hard for him to restrain feelings of gratitude," states Mr. Anderson as he was shown the bird.

### "The Wishing Cap" Delights Audience

Tuneful Operetta Proves Most Pleasant Surprise to Coleman People at Opera House.

Unintended praise is accorded by all to the ladies of St. Alban's W. A. for the presentation of the three-act play "The Wishing Cap," on Monday evening, especially in view of the many obstacles they had to overcome in a production of this nature, even the weather man being on his worst behaviour with sub-zero weather.

But the success which attended their efforts, and the pleasure derived by all who witnessed it has proved very gratifying to all who took part. The play was something entirely new locally in the line of amateur productions, yet the reception accorded it showed that entertainment of this kind is very much appreciated.

The theme of the play deals with the desire of the various characters to gain possession of the wishing cap, and a charming story is woven around the subject, in which Dame Durden and her daughter Elsa are the central figures. Katisha, a gipsy queen, gives the romantic touch, and her song and dancing number was so well done that the audience was not satisfied till the repeated, "Another number which drew an encore was the song and dance by Fairy Aola, with her chorus of little girls costumed as fairies.

The accompaniments and the musical score was very ably carried through by Mrs. Clifford, to whom due no small measure of credit for her part in the success of the play. Mrs. W. Borrow as director filled a very arduous and responsible position in a manner which meant much to the entire production, her services being especially valuable while the guiding hand of Geo. Derbyshire in charge of the lighting effects showed considerable skill in this difficult task.

The cast was as follows: Dame Durden.....Mrs. A. Jones Farmer Durden.....Mr. D. Hoyle Elsa (their little daughter).....Katherine Phillips Katisha, gipsy queen.....Mrs. T. Blower Ike (a gipsy husband to Katisha).....Mr. G. Derbyshire Ben (his brother).....Jack Rushton Polly (a dairymaid).....Mrs. Fred Fisher Dorothy (housemaid).....Mrs. Hancock Sue (milkmaid).....Mrs. E. Thom Kite.....Mrs. A. D. Currie Peg (milkmaid).....Mrs. W. Jackson Meg.....Mrs. F. Barringham Mattie.....Mrs. D. Griffith Jane, scullery maid.....Mrs. M. A. White Fairy Aola.....Eileen Richards

### Prizes Presented by Rod and Gun Club

Championship Cup Won by Late Geo. Lothian Received by Secretary on Behalf of Mrs. Lothian.

The annual smoker of the Rod and Gun Club was held on Friday evening in the Oddfellows Hall, when prizes for the summer competitions were awarded. H. T. Halliwell, vice-president of the club, was the chairman, and a very interesting program was given by local talent, including Archie McCulloch, in his character "songs"; Mr. Diffin, in a recent arrival, whose violin solos were greatly appreciated, and who is a distinct addition to musical circles here; John Anderson, in concertina solos; Pete Smith, songs; Wm. Smith, song; Mickey Brennan, song and chorus. A. Mason kindly officiated at the piano in his usual efficient manner, and gave a couple of stirring selections.

Following the presentation of prizes for the three summer competitions, the championship cup awarded by the club was received by J. Rushton, secretary, on behalf of the wife of the late George Lothian, the championship winner, whose death occurred on Nov. 17. The chairman in making the presentation, referred in the following terms to the winner, who was also a member of the club executive: "In meeting here tonight for our annual meeting, I am sure there is uppermost in our minds the thought of one of our members who took a very active interest in the welfare of the Rod and Gun Club and who through present at the executive meeting which discussed the arrangements for this annual meeting, is not here for the reason which you are all aware of. I refer to our late fellow member, George Lothian, and I feel that the governing body of this gathering that recognition should be made of his association with the organization.

"His acts rank as one of the finest deeds of heroism recorded, in company with his fellow partner, John Labbe. Had they implicitly obeyed the rules governing their work, they thought of self first. Lothian would have been with us tonight enjoying the society of his fellow men. But true to the highest traditions of the race from which he sprang, without any other thought than that of saving a fellow human being, he was stopping to consider that there was more danger of losing his own life than saving that of another, he went forward and in so doing died a hero's death.

"I feel that no honor that could be bestowed would be of such value as the example of his splendid act of self-sacrifice which has excited the admiration of us all. Words fail to express what the heart feels when we are saddened and yet thrilled by such an act as this. Tonight he would have been presented with a cup emblematic of his winning a competition during our summer outings. The honor he has won instead, and which in doing so has taken him from us (unlike the cup he would have been awarded here this evening) is imperishable, and I venture to say that of those who are here, as the years roll on, they would perhaps forget that Geo. Lothian had won the championship cup of Coleman Rod and Gun Club, but they'll never forget the splendid example he has set us all by the manner of his death. Truly might it be said of him: 'Greater love hath no man than this, that he lay down his life for his friends.'

"I feel that feeble though it may be as an expression of our admiration for our late member, and sympathy with his wife and children, that our secretary in the name of the Rod and Gun Club convey to Mrs. Lothian in a letter our heartfelt sympathy in her tragic loss.

Votes of thanks were passed to all who donated prizes during the season, and also a vote of appreciation to John Crawford, former president, recently moved to Merco.

The secretary, John Rushton, was also accorded a vote of appreciation for his services on behalf of the club. During the evening the refreshment committee was kept busy distributing refreshments, including "hot dogs" and various beverages, and a hearty vote of thanks was passed with hearty applause to all who had contributed towards the evening's program, which closed at 11 p.m.

Paul Bai Danah baritone, who distinguished himself at the New Canadian Festival at Winnipeg, will star with his repertoire of Viking songs at the Sea Music Festival to be held in Vancouver, January 23 to 26. The Sea Music Festival will revive the ship chantes of many nations, besides a grand deal of other music associated with the sea.

### Rink Company Hands Out Straight Talk

Directors State That Public Show Very Little Interest in How Rink is Financed.

The annual meeting of the shareholders of the Coleman Crystal Rink Limited was held in the council chambers by kind permission of the mayor and council on Thursday, November 28. It is incredible that an enterprise of this nature should awake such little interest among the shareholders, and that the annual meeting should only be attended by a few gentlemen who give freely of their time and ability and who are responsible for providing the rest of the citizens of Coleman and environs. Unfortunately the rink gets so little support from the community at large that it has now reached the stage when unless some strenuous effort is made to support it, it will have to be closed. It cannot be expected that the few who are willing to serve as directors year after year will contribute their services indefinitely.

The annual statement prepared by Mr. W. L. Rippon showed an improvement in the affairs of the company to a slight extent but indicated that the rink under the present system of operation was losing money.

The same board of directors was elected for the ensuing year and it was decided to hold the annual meeting in or before September next year so that the rink could be disposed of before the skating season started if it was found that it was impossible to carry on under the present arrangements.

(Continued on Page Five)

### Hockey Club Off to Fresh Start

Local Players Will Blazon Forth Under New Name of Coleman Canadian in Crow League.

Re-organization of Coleman hockey players was effected this week under the name of Coleman Canadians, with the following officers and committee: Honorary Presidents, Messrs. Geo. Kellock and O. E. S. Whiteside; President, H. T. Halliwell; Vice-President, W. Hogan; Second Vice-President, Frank Graham Sr.; Executive, L. Hayson, R. Shone and G. Korman; Sec.-Treas., P. H. Locke; Team Manager, Angelo Gentile; Captain, L. Clary.

The team has already signed up 15 players and their names will be registered with the league by Dec. 15. In order to raise funds it was proposed to issue season tickets for the league series of six home games at a flat rate of \$200. Committees were appointed to arrange for purchase of equipment, and a finance committee to raise funds to start the club off for the season.

There will be a further meeting called this week for reports of committees and to make further arrangements for the carrying on of the series.

A very good working arrangement has been made with the rink company, whereby the hockey club will receive 65 per cent of the gate admissions, and the company 35 per cent. Two nights a week will be allowed for practice.

The club executive consider the prospects bright for a good measure of support this winter, as the four teams in the league are fairly evenly matched.

#### UNITED CHURCH TO HAVE GRAND CONCERT DEC. 12

Women's Missionary Society Announce Fine Program of Local Talent from Pass Towns.

Programs have been issued for a grand concert to be held in the United Church on Wednesday evening next, which includes vocal and instrumental numbers of a high order. Artists include singers from Bellevue, Blairmore and Coleman, and the public are assured a splendid evening's entertainment.

#### SALVATION ARMY SERVICES

"Holiness meeting Sunday morning at 11 o'clock; Sunday School at 2:30; union meeting at 7 p.m. Public meeting every Tuesday at 7:30 p.m.

The Home League sale of work for the Salvation Army will be held on Saturday, Dec. 22. There will be on sale home cooking, sewing, etc., and you are cordially invited.

### Ski Championships for Banff

Top left, Kay Harrison, Queen of the Carnival. The inset proves that Banff Winter is not all shivers. Below, en-route to Lake Louise, pictures at the right.

Announcement that the Western Ski Championships of Canada would be held at Banff during the Carnival Week February 2-9 is greeted with enthusiasm in practically every corner of the continent. Skiing has always been a feature of the Carnival, but this season, world's champions will gather there and present an exhibition which in itself would be worth travelling a thousand miles to see.

The Banff Ski hill is undergoing improvements at the present time to allow for longer and more spectacular jumps and a cabin is being erected on the top of Stony Squaw Mountain by the Banff Ski Club which is also preparing several runs suitable for beginners as for experts. Last year a favourite cross country run was to Lake Louise, part of which was accomplished as automobile tow. That this is a worthwhile run may be gathered from the photographs above.

But the skiing is only one side of the Carnival life. There are the dogs and the derby, the ice and the skating, the toboggans and sleighs, the dances and fancy dress balls, curling and hockey, a properly organized sports program and a general atmosphere of spontaneity, gaiety and fun. W. A. Brewster is chairman of the Carnival, George Hunter is secretary and the Queen—the Queen of Banff Winter Carnival February 1929—is Kay Harrison of Vancouver. Miss Harrison's might easily have been a crown of beauty and popularity, but it was also her prowess as an all-round sportsman which gave her the title. Here will be a very merry court and it will embrace all those whose pleasure takes them to Banff during the period of her sovereignty.

### Incomes In the West

Within recent months numerous articles have appeared in print dealing with the progress and prosperity of the western provinces of Canada in which the wonderful fertility and productive capacity of the agricultural lands of the West, yielding hundreds of millions of new wealth annually, has been referred to, and the fact noted that in per capita wealth the people these newer provinces of the West have outstripped the older provinces of the East.

A correspondent of a western farm journal, having read these articles, asks: "Why, with such tremendous accomplishments to our credit, have not western farm men and women acquired a per capita income that would permit us to maintain comfortable, nicely decorated, well equipped, modern homes with some time to play as well as to work?"

The question is a pertinent one, but, at the same time it is not its general effect to create a false impression of actual conditions of farm life in the West? Nevertheless, it is deserving of an answer.

In the first place, it is well to consider that in no part of Canada, and probably in no place in the world, is the wealth of the country so evenly distributed among all the people as is the case in Western Canada. In Eastern Canada, and to an even greater extent in the United States and the older countries of the world great accumulations of wealth are possessed by a few individuals, families and corporations, while living in the same communities are hundreds of people, some in dire poverty, and others living from hand to mouth day by day, and denied the real comforts and joys of life. On the other hand, take Saskatchewan as an example, the third most populous province of Canada, with now close to one million people, but which alone among the provinces is not credited with even one millionaire.

This is not to say there are no poor in Western Canada. Unfortunately there are. But the further fact is to be remembered that this West is a new country, the newest in the civilized world, and that tens of thousands of its people have only resided here a comparatively few years, most of whom came to better their condition and get a start in life which was denied to them in the lands from which they came. The fact that the per capita wealth of the West is high in comparison with the East, while the available per capita income is provided for the necessities and pleasures of play time is alleged to be small, is accounted for because the per capita income has been invested in breaking new land, establishing new homes, securing the necessary equipment wherewith to develop farm holdings, make improvements, and, generally, building for the future. These investments represent per capita wealth, which is consequently high and steadily rising.

The true test to apply to Western Canada is: Are our farm homes becoming more comfortable, better equipped, more modern, as the years pass? Are the people who have come to this country decidedly better off, more comfortable and happy, than they were in the lands from which they came? Are they making real progress? Unquestionably, taking the country as a whole, such questions must be answered in the affirmative.

Finally, it is true that the per capita income of the Western farmer does not permit him and his family to enjoy the conveniences of, and pleasures of modern life? The telephone is one of the conveniences of modern life, and Western Canada ranks high among the countries of the world in the number of telephones in rural homes. The radio is another such convenience, a source of instruction and pleasure, and western farm homes are filled with them.

Or consider the automobile. Next to the United States with its many great cities, Canada surpasses the world in motor cars per capita, and these Western Provinces, mainly a rural people, possess as many cars in proportion to population as do the older provinces.

The rapidly increasing number of farm homes surrounded by trees and gardens testify to the fact that, as the pioneer days pass, incomes are sufficient to provide for the beautification of the home outside, and the same process is going on inside countless rural homes.

Nor would it appear from the ever increasing number of rural residents who visit the southern states, Eastern Canada, and the Pacific coast during the winter months, that the net income from farm operations is totally inadequate to provide some play time.

Nor must the fact be ignored that the provision of good roads, good schools, community halls, churches, and other conveniences of life, are, in the final analysis, provided—either through taxation or voluntary contribution—out of the per capita income. It has been sufficient to provide and maintain these things in this new country on a scale, and in a short space of time, unsurpassed anywhere.

**Canadian Apples In Britain**  
Canada's apples are becoming more popular in the British Isles. Exports so far this season, according to figures published by the fruit branch of the Department of Agriculture, amount to 183,062 barrels and 615,322 boxes. This is a substantial increase over the totals of 143,012 barrels and 211,943 boxes for 1927, and 160,144 barrels and 403,025 boxes for 1926.

Be sure you're right, then check your figures.

## When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

**More Potatoes Grown This Year**  
Canada's potato crop will amount to 54,585,000 hundredweight this year, according to a preliminary estimate of the Dominion Bureau of Statistics. It is an increase of 8,127,000 hundredweight compared with last year's crop of 46,458,000 hundredweight, an increase of 3,577,000 hundredweight over the five-year average.

Britain claims to be the world's workshop for aircraft, ships and locomotives.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

### Gasoline From Shale

Find New and Important Reserve Sources Of Motor Fuel  
Pressure-cracking tests on Canadian crude shale oil and on bitumen from bituminous sands show that these raw materials are important reserve sources of motor fuel. Gasoline yields of 18 to 20 Imperial gallons per ton of shale reported, and about 40 per cent. by volume of the dehydrated bitumen are reported. Other products from these oil and bitumen raw materials are appreciable quantities of good value coke and uncondensed gas of high calorific value. The quality of the gasoline from the shale oil may be considered good and that from the bitumen exceptionally good.

### NEGLECTED ANAEMIA

Often Leads To a Decline—Enrich the Blood By Taking Dr. Williams' Pink Pills

In their early teens it is quite common for girls, to outgrow their strength, and mothers should carefully watch the health of their daughters at this time, for it is when strength is sapped by rapid growth that anaemia develops. The first signs may be noticed by nervousness, languor and headaches. The face grows pale, breathlessness and palpitation follow, with low spirits.

At the first symptom of anaemia, mothers should act at once. Neglected anaemia often leads to decline. If you see that your daughter is enriched there need be no cause for anxiety. The finest blood enricher ever discovered is Dr. Williams' Pink Pills. The pure, red blood created by these pills will quickly banish all signs of anaemia. They will build up your girl's health, and ensure her a robust girlhood. Give your daughter a course of Dr. Williams' Pink Pills now. Make her strong like thousands of girls who have been rescued from the clutches of anaemia by Dr. Williams' Pink Pills. Here is a bit of proof.

Miss Mary Venditti, Canton, N.B., says: "Three years ago while attending a convent, I studied very hard to graduate. The result was I became very nervous and got so thin and pale my teachers thought they would have to send me home. I took different courses of medicine which my parents sent me but my condition remained unchanged. At last one of my teachers gave me a box of Dr. Williams' Pink Pills, and I had hardly finished it when I could feel an improvement in my condition. I continued the use of the pills for some time longer, and I can hardly tell all the good they did me. I gained in strength, and weight, and the color returned to my cheeks, and at the end of the term I graduated. I never fail to recommend Dr. Williams' Pink Pills to my friends and acquaintances when a cure is needed."

You can get these pills from your druggist, or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

### Anglo-Japanese Alliance

Will Not Be Revived, Says the British Foreign Office

The British foreign office, after the appearance of press dispatches in London newspapers from Japan discussing a possible Anglo-Japanese alliance and the position of the powers in China, let it be known that there is no question whatever of revival of the alliance, which was ended in consequence of the Washington conference.

As regards China, it was authoritatively stated that Britain, like the other powers, is pledged to consultation and co-operation.

**Always Ready and Reliable.**—Practically all pains arising from inflammation can be removed with Dr. Thomas' Electric Oil. Simply rub it on the sore spot and it is quickly absorbed by the skin. Its healing power is conveyed to the inflamed tissue which is quickly soothed. This fine old remedy is also a specific for all manner of cuts, scratches, bruises and sprains. Keep a bottle handy always.

### To Make Trial Flight

If Successful, British Dirigible Will Come To America

The first trial flight of the R-100, Britain's new giant dirigible, will be made to Cardington, Bedfordshire, it was announced. If the trip is successful the airship will proceed shortly to the United States.

It is believed that developments will follow which will revolutionize air transportation. Preparations for the flight have been kept secret but it is believed that they point toward the elimination of the use of petrol for driving the dirigible.

There are 300,000 more men than women in Canada, 100,000 more men than women in Australia, and 26,000 more men than women in New Zealand, while in England there are over two million more women than men.

### Nursing Record In Two Continents Hard To Equal

Nurse Waite of New Brighton writes: "While nursing in New York, in my twenty years, I was pained by food, my sister, Nurse recommended your wonderful Vegetable Laxative Pills. I am never without them and have prescribed them for thousands of my patients who were suffering with indigestion, gas and sour stomach, biliousness, sick headache and indigestion caused by constipation poisoning."

CARTER'S LITTLE LIVER PILLS. All drug stores—50c and 75c red boxes.

### Alberta Hail Insurance

Companies Ask For 48 Hour Time Limit In Accepting Policies

Relief in the form of amendments to the hail section of the Insurance Act is being asked by the hail insurance companies in Alberta, the amendments to be enacted at the next session of the Legislature, according to Henry Brace, Superintendent of Insurance in the Provincial Government.

There are operating in the Province at present more than 50 companies handling hail insurance and their request for relief has been occurring the last summer amounting in Alberta to approximately 120 per cent. of premiums.

In Saskatchewan conditions were little better, losses amounting to 92 per cent. of the premiums.

The main feature of the requested and suggested amendments is the time limit of acceptance or rejection of a policy to be extended from 24 to 48 hours.

At present a farmer can wire or phone his desire for coverage to the insurance company and the coverage commences at that time. The companies want to have 48 hours elapse between the time of filing notification for coverage and the time at which the coverage will be either accepted or rejected. By this means it is hoped to overcome any suggestion of delaying the placing of insurance until the last possible moment.

The present law provides that it is optional with the companies whether they accept applications by wire or telephone and it is understood that they have decided to refuse any applications made by this method.

Speaking in respect to the amendments, Mr. Brace said that it was his opinion that farmers must play the game with the companies if they desired them to remain in the field and that business should not be confined to a six weeks' period in the middle of the summer, but should be spread over the entire growing season.

### Recipes For This Week

(By Betty Barclay)

#### MARSHMALLOW SURPRISE

- 1 package chocolate junket.
- 1 pint milk.
- 1/2 pound marshmallows.
- 1 cup confectioners' sugar.
- 1/2 cup boiling water.

Prepare chocolate junket according to directions on package. Cut marshmallows in pieces and melt in double boiler. Dissolve sugar in boiling water add to marshmallows, and stir until thoroughly blended. Turn into a bowl and cool before serving on top ice cold chocolate junket.

#### PENNSYLVANIA COLE SLAW

- Put two pounds of firm, crisp cabbage through the slicer. Add a dressing made from:
- 2 eggs beaten light.
- 1 cup cider vinegar.
- 1 cup water.
- 6 scant teaspoons sugar.
- Salt to season.
- Butter size of walnut.

Cook slowly for few minutes until thoroughly mixed. Stir tablespoonful four thinned in water into mixture and cook for five minutes over slow fire. Cool, thin with cream, then pour over sliced cabbage and mix thoroughly. Finely-chopped cabbage may be used instead of sliced.

Wise mothers who know the virtue of Mother Graves' Worm Expeller, always have it at hand, because it proves its value.

Nickel ore from the Deposits near Sudbury, Ontario, is now being raised and smelted at the rate of 1 1/2 millions tons per year and the ore reserves are placed at over 150,000,000 tons.

The majority of the people in the world will be speaking English in 50 years' time, according to one expert.

### Meat Production In Canada

Increasing Number Of Live Stock Now Slaughtered Under Inspection

Meat production in Canada is making a steady growth. According to the report of the Veterinary Director General for the past fiscal year there were slaughtered under the supervision of the Meat Inspection Division 1,477,253 cattle, 808,905 sheep, and 2,596,138 hogs. This is an increase of 3.46 per cent. of cattle, 9.71 per cent. of sheep, and almost 2 per cent. increase of hogs. The Province of Ontario is well in advance of any of the other provinces in the production of these meat producing animals. Of cattle Ontario supplied 38.74 per cent. of sheep 45.87 per cent. and of swine, 47.09 per cent. Quebec came second with 23.24 per cent. of the cattle, 26.31 per cent. of the sheep, and 15.87 per cent. of swine. Manitoba occupied third position in providing 17.49 per cent. of the cattle, 7.30 per cent. of sheep, and 15.03 per cent. of the swine. Manitoba was followed in order by Alberta, British Columbia, Saskatchewan, New Brunswick, Prince Edward Island and Nova Scotia.

These figures do not cover a considerable number of live stock of the different kinds slaughtered by butchers and others for local trade.

### British Youths For Saskatchewan

One Hundred Boys Will Arrive From Britain In The Early Spring

Saskatchewan has now entered into a plan initiated by Lord Lovat, Under-Secretary of State for Dominion Affairs and Chairman of the Overseas Settlement Committee in Great Britain, by which one hundred boys will arrive in the early spring of 1929, all chosen by the Empire Settlement Committee. They will be 16 and 17 years old and the Boy Scout type. At a hotel at the University of Saskatchewan, they will be received, instructed, supervised, and given after care, the Imperial Government paying one-half the cost, and the Federal and Provincial Governments paying one quarter each.

**The Oil For The Athlete.**—In rubbing down, the Athlete will find Dr. Williams' Electric Oil an excellent remedy. It renders the muscles and sinews pliable, takes the soreness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

**Geodetic Surveys**  
The principal function of the Geodetic Survey of Canada, which is a subdivision of the Surveys Bureau of the Department of the Interior, is to furnish latitude, longitude, and elevation data for all surveying and mapping operations in the Dominion.

**Minard's Liniment For Grippe.**

Young Lady (to old salt) — Have you ever seen the sea serpent? Old Salt—No, Miss, I'm a teetotaler.

## ECZEMA BROKE OUT IN RASH

Child Very Cross and Fretful. Cuticura Heals.

"When my little sister was four months old eczema broke out in a red rash which later formed blisters. It itched and burned causing her to scratch. She was very cross and fretful, and used to lay awake half the night. The trouble lasted six months."

"A friend recommended Cuticura Soap and Ointment so my mother purchased some and after using five boxes of Cuticura Ointment and three cakes of Cuticura Soap all signs of the trouble disappeared. She was healed." (Signed) Mrs. Thomas Canning, Clarksburg, N.S. Use Cuticura Soap, Ointment and Talcum for daily toilet purposes. Sample Book Free by Mail. Address: Canadian Agents: "The Canadian Family," 1000-1001, Cuticura Shaving Stick 25c.

### Civic Land Department

City Of Calgary Sells Land To Value Of \$85,000 In Month Of October

Land sales totalling in the neighborhood of \$85,000 were negotiated by the civic land department of the City of Calgary during the month of October, representing the greatest total of new sales ever recorded since the department was opened in 1922. The total sales of the department for the year are expected to grow into an enormous figure and, with millions of dollars worth of land still available for sale, this department has become a permanent part of the city service.

Miller's Worm Powders will not only expel worms from the system but will induce healthful conditions of the system under which worms can no longer thrive. Worms keep a child in a continual state of restlessness and pain, and there can be no comfort for the little one until the cause of suffering be removed, which can be easily done by the use of these powders, which are very effective.

### Soldier Settlement Board

Over Million Acres Of Vacant Crown Land Taken Up In Alberta During 1928

According to a report compiled by the District Superintendent of the Soldier Settlement Board, 1,106,400 acres of vacant crown land were settled in central and northern Alberta during 1928. Of this acreage 4,131 quarter sections were filed on in the Peace River country, and 1,456 homesteads and 76 soldiers' grants were taken out in the Edmonton District.

When Holloway's Corn Remover is applied to a corn it kills the roots and the callus comes out without injury to the flesh.

There are now, on an average, six times as many divorce cases brought before English courts as there were in pre-war days.

## EVEREADY Layerbilt

Radio "B" Power in its highest development—power that gives continuous, hum-free reception from both local and distant stations. Economical power, too. You'll be agreeably surprised how long Eveready Layerbilt "B" batteries will operate your set without replacement.

Ask your dealer. He will tell you that his customers come in and ask for Eveready Layerbills.

Wise mothers who know the virtue of Mother Graves' Worm Expeller, always have it at hand, because it proves its value.

Nickel ore from the Deposits near Sudbury, Ontario, is now being raised and smelted at the rate of 1 1/2 millions tons per year and the ore reserves are placed at over 150,000,000 tons.

The majority of the people in the world will be speaking English in 50 years' time, according to one expert.

**RADIO IS BETTER WITH BATTERY POWER**

## HUDSON BAY ROUTE TO BE BIG TRADE FACTOR

Prince Albert.—Savings running into millions of dollars annually will be made possible to the general public and producers of Saskatchewan as result of the opening of the Hudson Bay Railway, according to members of the Saskatchewan Traffic Council who, in an all-day session here, discussed the effects of the Churchill route from a variety of aspects.

Making their deductions from experimental and tentative tariff schedules the different speakers who contributed to the discussion forecast great stimulation and development of production in the province and fore-saw tremendous savings in shipments of grain and live stock and of the produce of the packing houses, dairies and other industries.

In addition to discussing the effects of the opening of the Hudson Bay route, the council dealt with the position of the express rates case now before the Board of Railway Commissioners and also considered the rates on general merchandise from Eastern Canada to Melville and to Prince Albert.

Representatives were present from the member Boards of Trade of Regina, Moose Jaw, Saskatoon, Swift Current, Yorkton, North Battleford, Weyburn, Estevan and Prince Albert, while two delegates were in attendance from Melville who, on behalf of the Board of Trade of that town made application for and were accepted into the membership of the council. Geo. H. Smith traffic manager and rates' expert who represented the Provincial Government, summarized the general situation and the favorable effect of the route on the late structure.

## Saved Children

### From Drowning

Three Rescued From Water By Seventeen-Year-Old Boy

Ottawa, Ont.—Irvin McNeely, 17, saved three small children from drowning in Browns Lake here after diving, fully clothed, through a thin coating of ice into the frigid water. The children, none of them over five years of age, were playing with their sleighs when the ice gave way. Mr. Neely was driving past the lake when he noticed the children. He immediately leaped from his seat and dove into the pond.

He managed to save all three of the children and finally made his way to shore. Others attracted to the scene by this time lifted the young hero out of the water. He was near exhaustion.

## Would Hold Navy

### Parley In Canada

Might Help Solve Problems Says U.S. Senator

Washington.—Chairman Britten, of the House Naval Affairs Committee, thinks he has a plan that would help the United States and Great Britain to arrive at an understanding on the equality of sea power and naval problems generally.

He has put forward his ideas in a cablegram to Right Hon. Stanley Baldwin, Prime Minister of Great Britain. He suggested that members of the House Naval Affairs Committee and a committee from the British Parliament hold a joint meeting in Canada after March 4.

Chamberlain Welcomed

London, Eng.—Chamberlain greeted the reappearance after his illness of Sir Austen Chamberlain in the House of Commons. Sir Austen Chamberlain expressed the desire to work in harmony with the United States and Japan in China, and denied any preferential treatment was being given Japan.

Death Of Mrs. Calder

Winnipeg, Man.—Mrs. Johanna Calder, mother of Senator J. A. Calder, of Regina, and widow of the late James Calder, died here Nov. 28. Mrs. Calder was 91 years old, and had been a resident of this city for 46 years, coming here with her husband from Oxford county, Ont.

Favors Naval Equality

London, Eng.—Viscount Cecil, of Chelwood, favored absolute mathematical equality in both tonnage and guns between the British and United States navies, in an address which he made before the parliamentary committee of the League of Nations Union.

W. N. U. 1762

## United Grain Growers Ltd.

Organization Shows a Very Substantial Year's Business

Copies have been received of the balance sheet and the annual report presented at the twenty-second annual meeting of United Grain Growers Limited, held in Calgary last week, and these show that Company to be in a highly satisfactory position.

The profit and loss account for the fiscal year ending August 31st, 1928, showed gross earnings of \$3,547,315.00 against expenses of \$2,141,068.00. Interest on bonds, mortgages and debentures amounted to \$193,141.00, depreciation to \$298,273.00, leaving the net profit, subject to government taxes at \$714,831.00.

The surplus carried forward from the previous year amounted to \$556,782.81, and the addition of the year's profit made a total of \$1,271,613.00. From this deductions were made for shareholders' dividend at 8 per cent. per annum, \$243,156.00; for patronage dividends, \$114,768.00; the general reserve, \$185,011.00, and depreciation, \$226,315.00, leaving to be carried forward \$502,373.31. Current assets, amounting to \$5,873,102.00, were more than double current liabilities of \$2,925,334.00. Capital assets total \$9,115,243.00, against which there is provided a depreciation reserve of \$2,900,310.00, while the capital liabilities amount to \$4,563,554.00. Paid up capital stock amounts to \$3,096,695.00, while shareholders' capital and surplus amounts to \$5,299,068.00.

The annual report showed that the Company, besides completing the terminal elevator at Port Arthur, the capacity of which is 5,500,000 bushels, and which was under construction at the time of the last annual meeting, had made considerable progress in the development of its country elevator system. Between September 1st, 1927, and August 31st, 1928, 70 country elevators were built and purchased, with a number of others placed under construction since that date. At 11 elevators were torn down and replaced with modern houses, while 27 elevators were sold during the year. Elevators are now operated at 413 points in the three prairie provinces.

Winnipeg representatives returning from the annual meeting, report to have been one of the most successful and satisfactory in the history of the Company. Not only is the Company in a better financial position now than it has ever been, but, judging from expressions of opinion on the part of delegates, it has never stood higher in the general regard of western farmers. The delegates showed their confidence in the Company by prompt acceptance of the reports presented to them and by re-election on the first ballot of the four retiring Directors. The whole meeting indicated complete confidence and satisfaction in the conduct of the business by the Management and the Board of Directors.

## Soviets Elect Woman Mayor

Factory Worker Now Head Of Large City In Republic

Gomel, White Russia, U.S.S.R.—A woman factory worker, Tatiana Prusakova, has just become mayor of Gomel, one of the largest cities in the White Russian Soviet Republic. Since childhood Prusakova worked in the local match factory. After the Revolution she became active in the Soviets, and now she has been elected President of the Gomel Soviet, a position corresponding to mayor or burgomaster.

Deadly Level Crossing

Mortlach, Sask.—Two farmers of the Secretan district, Edwin Gunderson and A. J. Toner, bachelors, lost their lives at Bucknell's Crossing, two miles east of here, when the Chevrolet sedan Gunderson was driving, was struck by a southbound C.P.R. freight train. Gunderson was killed outright, and Toner lived about two hours, dying on passenger train No. 2, as he was being rushed to Moose Jaw Hospital.

Million In Royalties

Trenton, N.J.—Two thirds of the royalties from the reproduction of Enrico Caruso's voice on phonograph records were awarded to Miss Gloria Caruso, young daughter of the famous singer. The royalties are estimated to amount to about \$1,000,000. Gloria was also awarded half the New Jersey estate.

Famine In China

London, Eng.—The Daily Express Feking correspondent says that an urgent famine situation has arisen with 20,000,000 destitute and starving people in seven provinces of Northwestern China, governors of the provinces fear uprisings unless relief is immediate.

## Gathering Data Of Industries In West

Plan To Divide Prairie Into Sections For Investigation

Winnipeg, Man.—Acting on the suggestion of the Manitoba Industrial Development Board, the Natural Resources Intelligence Service, at Ottawa, has prepared a plan for gathering data relative to the logical industrial progress of the prairie provinces that will be submitted to boards of trade and other interested bodies.

The Ottawa suggestion is that the West be separated into five leading manufacturing centres for the purposes of the investigation and procedure on co-related lines, the first group consisting of Winnipeg, the second of Moose Jaw and Regina, the third of Prince Albert and Saskatoon, the fourth of Calgary, Lethbridge and Medicine Hat, and the fifth of Edmonton.

Ottawa suggests that the following circumstances in each of the groups be investigated: Manufacturing facilities, development of related industries, natural resources adjacent to the centres, duplication of production, suitable new industries, transportation and reference to the effect of the Panama Canal route to the Western market, new marketing methods, branch plants, and industries chiefly affected by transportation.

## BRITISH NAVAL ACCORD WITH U.S. MAY BE REACHED

London, Eng.—Viscount Cecil, of Chelwood, in a speech before the League of Nations parliamentary committee of the House of Commons, said that he believed a naval agreement with the United States might be reached.

"The fundamental difficulty encountered in every disarmament discussion rests on the fact that the problem is treated too little as a matter of large politics and too much as a matter for experts with whom the whole discussion is based and on assumption of war and attack," he said.

On this basis, no progress is possible.

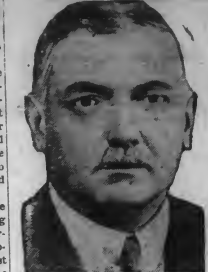

Lord Cecil said the first step in any general disarmament agreement must be an accord between the United States and Great Britain. "It is manifestly to our interest to accept without reserve the United States absolute parity," he asserted. "I favor absolute and complete mathematical equality both in tonnage and guns. I believe on this basis a full agreement can be reached."

He then turned to the development of such an accord into a world-wide agreement. Lieut.-Commander Joseph M. Kenworthy, Labor member, will ask Prime Minister Stanley Baldwin in the House of Commons what reply he is sending to the suggestion of Fred A. Britten, for an Anglo-American parity in Canada on the cruiser problem.

Manitoba Resources

Ottawa.—The first public hearing in connection with the return of the natural resources to the province of Manitoba, will be held in Ottawa on February 10, 1929.

## FRENCH MINISTER TO CANADA

M. Jean Knight, new French minister to Canada, who has arrived in Ottawa, and has presented his credentials to the governor-general.

## Alberta's Resources

### Up For Discussion

Conference In Ottawa For December 12 Has Been Arranged

Edmonton.—Natural resources and Alberta's chances for getting them will be up for consideration again on December 12, in Ottawa, Premier Brownlee has received advice from Hon. Mackenzie King that that date will be most suitable from his point of view and he has replied accepting it as satisfactory also to the Alberta side of the case. Hon. R. G. Reid, provincial treasurer, will accompany the premier to Ottawa for the conference.

That something definite and perhaps final will result from the round table discussion of the question, after a year's rest, is Mr. Brownlee's hope. The idea, he takes it, is to canvass the situation thoroughly and arrange the basis upon which a settlement can most advantageously be effected. From the province's standpoint it is thought some help toward such a settlement has been given by the disposition that has been made of the Manitoba case.

## Say Complaint Justified

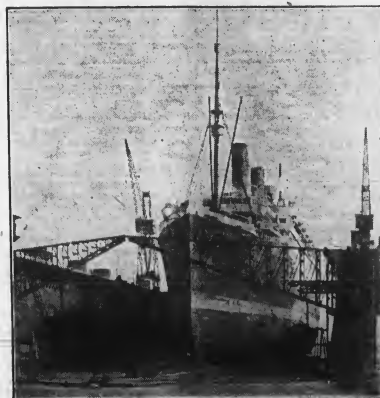

Better Accommodation Needed For Horses At Winter Fair

Toronto.—Exhibitors and management at the Royal Winter Fair are unanimous in the opinion that the complaint of Professor W. L. Carlyle, manager of the "EP" ranch, who refuses to show any of the Prince of Wales' horses at the fair until new accommodation is provided is justified, according to The Toronto Telegram. While the fair management are aware of the poor housing, they say they have no alternative accommodation to offer, but it is hoped, with the aid of the Federal and Provincial governments, that something will be done in the immediate future to alleviate the situation.

Will Lose Franchise

Toronto.—Any person whose name is included in the list of dirty city income tax payers in Toronto will not be able to vote in the municipal elections on New Years Day unless he can produce his tax receipt, according to a ruling by City Clerk Somers. There are more than 20,000 persons who have not yet paid their tax.

## An Empress on Holiday

Here the Canadian Pacific Empress of Australia, having completed her last trip of the season to Quebec, is seen in the floating dry dock at Southampton where she is receiving a first coat of paint prior to setting out on a cruise of the world. Some idea of the great size of the Empress may be gained through comparing her with the two men in the small boat tied to the dock in the foreground.

## Buy's Own Exhibit

Herman Trelle Pays Stiff Price For Half Bushel Of Wheat

Toronto.—Four hundred dollars represents a stiff price for a half bushel of wheat, but that is what Herman Trelle, the wheat and oat king from Wembley, Alta., paid at the Royal Winter Fair for his own sample prize-winning half bushel during the auction sale for the grain samples which scored the ribbons.

In his capacity as oat king, Mr. Trelle also paid \$100 for his second prize oat sample, and the same for a half bushel of red-ribbon chancellor peas.

Under the conditions of entry, prize exhibits must be sold, but there is nothing to prevent a prize winner from bidding on his own exhibits. The money from the sale is given to the exhibitor, less a commission taken by the Winter Fair.

## Ask For Protection

National Dairy Council Wants Protection For Dairy Industry

Toronto.—The National Dairy Council, of Canada, at the concluding session of the annual meeting here, passed a resolution reaffirming the council's stand in asking adequate protection for the Canadian dairy industry. J. A. Caulder, Regina, president, declared that the dairy industry of Canada should be given a fair chance against all competitors and he pointed out that the industry was not being fairly treated at the present time.

A resolution favorable to the compulsory pasteurization of milk in cities, towns and villages was unanimously adopted while a policy for selective registration of dairy cattle and milk recording also was endorsed.

## PROGRESS MADE IN PAYING OFF NATIONAL DEBT

Vancouver.—Hon. James A. Robb, minister of finance, dealt with the progress of Canada in paying off her national debt during the course of an address before the Canadian Club here. Mr. Robb said that during the five-year period ending March 31, this year, Canada had reduced her debt by \$139,000,000 or at the rate of more than \$55,000,000 a day.

In October of this year, Mr. Robb continued, \$53,000,000. Indebtedness had been retired from current revenue. Next year he hoped to retire \$60,000,000 by the same method. "We want to make a further tax reduction, but I am not going to say anything more about that just now," the minister remarked.

The demand for money for roads and other expenditures, added the minister, had led to some duplication in taxation between provinces and the Dominion. This was particularly true in British Columbia. Reduction of taxation in order to clear these fields was desirable.

In reference to foreign trade, Mr. Robb said Canadians should endeavor to get their products into the markets of the world and that the facilities for doing this were greater in Canada than in the United States. The United States had not as good a transportation system from its interior to its world ports as had Canada.

As for British Columbia there were few ports, he stated, that were as well situated for world trade as those of this province. Canada last year had traded with 114 nations and the port of Vancouver with 51 nations, an enviable record.

The minister added that most important to the expansion of the Dominion's foreign trade was the development of world friendships. Although foreign trade was desirable, trade within the empire was even more important. Inter-empire trade could not be developed by singing "Tipperary" and the British ships could not be kept on the seas by "Rule Britannia." Something more practical must be done, the speaker declared.

"Canada need have no forebodings about her future," Mr. Robb said. "It is true that we have a big debt. But we must remember that Canada was in the war from the drop of the hat. We have asked no favors from anybody. There were difficult times for my predecessors during the war and during the period immediately following it, but in 1924 we turned the corner."

"We might well unite on a policy of saying all the good things we can about our country. The days of sailing ships are gone and we must remember that what we say today will be read by the world tomorrow."

## URGE CHEAPER OCEAN RATES TO AID MIGRATION

Ottawa, Ont.—Negotiations for a cheaper ocean rate for British immigrants to Canada are still being carried on in London, and a decision is expected within a few days, officials stated here. While it was admitted that the discussions were taking longer than was expected, it was denied that any deadlock had been reached.

A ten-pound third class rate is being urged on the steamship companies by representatives of the British and Canadian governments. This would apply to all those who cannot qualify for the two-pound rate for household and farm workers, under the empire settlement scheme.

The negotiations have drawn attention to the fact, immigration officials point out, that since the war rates to Australia have doubled, while fares to Canada have advanced more than three times. The present rate to Australia is £38 as compared with £18 before the war. In the same period, the rate to Canada has increased from \$6 to \$18.15. It was pointed out that the present rate to Australia is 1.6 cents per ocean mile, while the fare to Canada is 3.3 cents. It was explained that neither government has control over rates and the negotiations are merely in the way of persuading the transportation companies to consider a reduction in order to stimulate migration.

## Assistance Asked

### For British Miners

Nearly Three Hundred Thousand Are Out Of Employment

London, Eng.—This plight of unemployed miners in Britain has reached such a serious stage that all political parties are viewing the matter with the utmost concern and the Miners' Federation has issued an appeal for assistance. Nearly 300,000 mine workers are out of employment and of these 200,000 to 250,000 constitute a permanent unemployed surplus.

With their wives and children, it means that, over a million face hunger unless help is speedily forthcoming. The Miners' Federation, in its appeal says "the mining population is faced with a catastrophe comparable to the destruction wrought by some great earthquake or other giant disturbance of nature. Some of the miners have exhausted their unemployment benefit and are being supported by grants from the poor law, which, naturally are small, and the courts are filled with stories of hungry miners tramping the countryside in search of work."

Will Develop Production Markets

Victoria, B.C.—Development of a marketing branch of the department of agriculture which will aim to develop new and existing markets and give farmers accurate information of existing markets was the announcement of Premier S. F. Tolmie, who declared that the first work of this department would be to begin a complete survey of all markets available and choosing of the best men for such work.

Increase In Immigration

Ottawa.—Immigration to Canada for the seven months of the present fiscal year ended October 31, amounted to 131,754, compared with 118,159 for the same period a year ago. This represents an increase of 11 per cent. Many Canadians during the same period returned from the United States to take up permanent residence in the Dominion.

Leaves For Battle Creek

Winnipeg, Man.—Premier John Bracken has left for Battle Creek, Mich., and will recuperate at the sanatorium there. It is not expected that he will return to the city until about Christmas. He has been in poor health for a considerable period. Hon. W. R. Clubb, minister of public works, will be acting premier in Mr. Bracken's absence.

Air Mail Service Speedy

Winnipeg, Man.—The air mail service to be inaugurated in the prairie west, December 10, will make it possible for correspondences to be delivered at Regina, Saskatoon, Calgary and Edmonton the same day as it is written. As well, despatches for those cities will contain mail for adjacent or connecting points to be forwarded by next mail.

Your work would not be so burdensome if you put more hum into it.

### Notes and Comments

With the greatest holiday of the year approaching everybody's thoughts unconsciously take a turn towards a more cheerful attitude. No matter what trials and difficulties may be encountered in the course of everyday life, the spirit of Christmas seems to make light of them, and it is well that this cheerful atmosphere prevails to spread its leaven in our hearts, if only for a very brief period. It serves to exemplify how the mind can rise above the mundane things of life, and think in the spirit of the great Christian whose birthday we all join in celebrating.

The performance on Monday evening by a number of ladies and children not only had entertaining value, but showed that the performers possessed the art of self-expression and ambition. That tuneful and vivacious operetta "The Wishing Cap" sets a new mark in amateur theatrical efforts and those who heard it are unanimous in their appreciation. Moreover the attendance in abnormal weather conditions was very encouraging, and a very pleasing feature worthy of comment is that the public view these efforts by local organizations with a kindly spirit. It helps to elevate the life of the community and to create incentive among the younger minds towards the study of the finer things of life which help to give polish and make life pleasant and agreeable.

When people turned over in their beds on Monday morning, they did not need to go outside to find out if it was cold. A 25-below zero temperature very quickly injects itself into the very best buildings, and people with slim supplies of coal very quickly seized the telephone to order more coal. Without question it is invigorating, for such a chilly atmosphere compels one to move briskly to maintain sufficient circulation to ward off the effects of such a gripping frost. Anybody who says he enjoys such weather is very much to be doubted. Most people are quite content with the thermometer registering zero at the lowest, which is quite sufficient to keep one from becoming sluggish.

The hockey league of the Crows Nest Pass is away to a fresh start, and all power to it. There are the croakers who try to throw a wet blanket on efforts to revive interest in this national winter pastime, which is essentially a 100 per cent. Canadian sport, but there is no doubt that there are on the other hand a large number of warm-blooded people in these Pass towns to encourage the teams in their respective towns. Incidentally it should be noted that the rink company benefits in proportion to the support given to the hockey matches, and as the rink is a community enterprise, big attendances at hockey games is a help to both organizations. With a few of Blairmore's star players picked up by B. C. teams, it looks as if there will be some keen and evenly matched competition in the Crow league this season.

### Here and There

(173)

More than 20,000 acres of Indian lands, which include some of the best agricultural areas in the Peace River district, are likely to be sold at auction in the near future. This action will in all probability follow a survey that is being made in the north country by W. Morrison, Inspector of Indian Agencies for the three western provinces, with headquarters at Regina.

A new industry—badger farming—may be started in Saskatchewan by John Rothenberger, farmer of Vanguard. Last spring Mr. Rothenberger caught a badger and four pups. He built a large pen, about 15 feet long and 4 feet wide. During summer he fed the badgers until they are now quite tame, and are said to be larger than any badger running wild. Their coats are in excellent condition and offers of \$18 for each skin have been received.

A new world record was set by the Canadian Pacific Railway recently when a train of grain more than a mile in length was operated between Stoughton and Arcola, in Saskatchewan. It was the longest and heaviest grain train in history, consisting of 138 loaded grain cars, each approximately 40 feet in length, a water car, a caboose and engine. The gross weight was 8,722 tons and the total contents of the cars were 202,000 bushels of grain.

The enthusiasm of the citizens of Quebec is so infectious that it is an easy matter to interest visitors in winter sports, stated J. O. Strathdee, winter sports manager of the Chateau Frontenac, in giving a forecast of this winter's programme. Skating, skiing and tobogganing will be in full swing as usual; the dog derby will most certainly take place; and the ice carnival and storming of the citadel will probably be featured again. He said Mr. Strathdee mentioned the splendid co-operation given the winter activities at the Chateau Frontenac by the Quebec Winter Sports Association.

### Here and There

(183)

The Western Canada ski championships of combined ski events will be held in Banff again this season in conjunction with the Banff winter carnival, due to take place next February. It has been decided upon. Such famous skiers will probably be in attendance as Nelson of Revelstoke, Tupper of Vancouver, last year's western representative at the Olympic games, and Nordmo of Camrose.

"Once upon a time there were sixty foxes who didn't wear pants and didn't wear shoes, but they all went travelling in a big box." A parody on A. A. Milne's famous nursery rhyme is inspired by a shipment of sixty black and silver foxes who passed through the Windsor Street Station recently en route to Switzerland from Calgary. They were "under the wing" of the Canadian Pacific Express, who saw that the animals got their diet of raw meat regularly.

The case of a motorist being stricken with "buck fever" and putting his car into the ditch in his excitement has been reported from the Nipigon district. While driving along the highway between Nipigon River and Bungalow, near Port Arthur the motorist was started when a deer appeared on the road before him. Whether he tried to chase the animal or forgot he was at the wheel, he does not state, but when he recovered his senses he and his car were in the ditch. Little damage was done.

The building of more than 400 miles of new branch lines, with 17 new stations and shipping points sums up in brief the construction programme of the Canadian Pacific Railway in Western Canada during the past summer, according to D. C. Coleman, Vice-President, Western Lines. By this means hundreds of farmers had been brought much closer to transportation facilities, and thousands of acres of rich agricultural land had been made much more attractive from the settlers' viewpoint.

## Catalogue Competition

The thing for the merchants of this community to do in their own interests is to advertise faithfully, and to make their printed announcements interesting and helpful to those whose trade and favor are desired.

Mail Order Houses and the large departmental stores of neighboring cities with their striking advertisements and catalogues are the serious competition of local merchants.

The poorest way to offset this competition is for our local merchants to remain silent. For them not to "speak up" is to give the mail order houses a better chance to get business from this community.

### A WORD TO THE PUBLIC

When you send your money to a city store you enrich the great shops and impoverish this community. Strengthen—not weaken—the merchants of this community. It will all be returned to you in the form of better service and better values.

Fine Homing Pigeons

(Continued from Page One)

As showing the rapidity of flight  
of these pigeons, flights have been  
made from Sebastian, Spain, to Eng-  
land, a distance by air line of 800  
miles, in two days.  
Mr. Anderson kept his pigeons in  
their loft here for a month after ar-  
rival, and the first time he let them  
out two flew in circles at a great  
height, and he never saw them again.  
He has notified various clubs in  
Western Canada, and they have pro-  
mised to advise him in the event of

them coming to any lofts in their dis-  
tricts. The pigeons are of a noted  
European strain, and highly prized by  
fanciers.

Rink Company Hands

(Continued from Page One)

The management of the rink was  
placed in the capable hands of Messrs  
Purvis and Boulton.  
It was noted with some concern  
that the water and light bills for the  
past season were very high and it is  
hoped that some arrangement may  
be made whereby this burden on the  
management will be lightened.  
The meeting then adjourned after  
the usual votes of thanks to all con-  
cerned.

## WORLD HAPPENINGS BRIEFLY TOLD

There are more rats than humans in Buffalo, according to a report by Francis E. Franczak, city health commissioner, in urging a campaign to reduce the rodent population.

At the Royal Fair, Toronto, J. E. Falconer, of Govan, Sask., won the Carlsberg trophy, the championship cup, with his three-year-old Clydesdale, Lochlinvar.

Commander Hugo Becker has reached an agreement with the Aero Arctic Society to undertake two Arctic exploration flights in the dirigible, *Grat Zeppelin*, in 1930, under Aero-Arctic auspices.

Inspector A. E. G. Roames, in charge of the criminal investigation department of Royal Canadian Mounted Police, for Vancouver district for some years, has been transferred to Lethbridge, Alta.

Earl Jellicoe, retired admiral of the fleet, has been appointed director of the Midland bank. He is already a governor of the Bank of New Zealand, in which dominion he was formerly governor-general.

Navaris has decided to publish a number of secret documents, including Crown Prince Rupprecht's war diaries. It is believed the diaries and archives will reveal many important clues to events of the World War.

Admiral Reinhard-Scheer, who defeated the German fleet at the battle of Jutland on May 31, 1916, against the British fleet, is dead at the age of 65. His death occurred as he was travelling from Dresden to Mannheim.

Saskatchewan has been successful in taking first and third prizes in the extended hair dress at the Toronto Winter Fair. H. C. Baker, of Fielding, Sask., was awarded the first prize and Walker L. Bunavon, of Orkison, the third.

The Alberta legislature will be called to meet on January 24, it is announced by Premier Brownlee, subject to any unforeseen developments in connection with the sale of the government railways. This will be the earliest opening date since the province was established.

Asthma Overcome. The triumph over asthma has been achieved, Dr. J. D. Kellogg's Asthma Remedy has proved the most positive blessing the victim of asthmatic attacks has ever known. Letters received from thousands who have tried it form a testimonial which leaves no room for doubt that here is a real remedy. Get it today from your dealer.

## Tree Grows Around

## Telephone Block

Rings Show It Was Attached Thirty Years Ago

When a cottonwood tree was cut down near New Denver, B.C. recently, it was found to contain in its heart a telephone line block, the piece of wood to which the glass insulator for the wire is attached. The tree had grown completely around the telephone block, which was in perfect preservation. Counting of the tree rings disclosed that it had been attached to the tree thirty years ago.

This fact was borne out by G. Williamson, manager of the telephone company, who recalls when the telephone wire was first installed, establishing communication between Silverton and New Denver during the great mining boom days.

Taylor: "There's nothing like an appropriate setting, is there?" Bailey: "I suppose that's why the plants in a hotel lobby are always palms."

## Sneezing?

At the first sneeze inhale Minard's. Prevents colds. Also good for bruises and sprains.

## Canadian National Railways Design New Type Locomotive

Represents Revolutionary Advance in Motive Power Equipment and May Supercede Steam Engine

A new locomotive which represents a revolutionary departure from all present standards of practice and which may render the steam locomotive as extinct as the "dodo" has been placed in service by the Canadian National Railways. Presenting a tremendous advance in the use of the oil-electric type of motive power, it forms a distinct offering on the part of Canadian engineers towards the solution of the transportation problems of this continent. As the National System was the pioneer, three years ago in placing in service the first oil-electric car of 200 horse power rating, its engineers have maintained leadership by the introduction of this locomotive, new in character and design for fast passenger and freight service.

When the first oil-electric car was put into service by the Canadian National Railways, it established two world records: (a) by a continuous run from Montreal to Vancouver, a distance of 2,387 miles, in 67 hours, and by the continuous operation of the engine during that period, the longest non-stop run in rail history. The new oil-electric locomotive is designed to be even greater performance.

The new locomotive is the further practical application of the use of fuel oil in railway transportation in which an oil engine is used to drive a generator for supplying electrical energy to the propulsion motors. Power and speed are obtained at costs in service with coal fired steam driven locomotives.

## Simple To Operate

In appearance it resembles the electric type. The operation is simple, the engineer directing the propulsion by means of a controller similar to that used on an electrically driven motor. The locomotive has an airbrake valve giving the driver complete control of the locomotive. For his propulsion, the locomotive has gauges furnish complete information regarding voltage, oil supply, and air pressure. The locomotive consists of two units, which may be operated jointly or independently, as required, and it is one unit which is now in service. When the second unit is completed and ready for service, the two will be coupled and will be able to haul 4,000 tons of public generally may have an opportunity of inspecting this new product of the Canadian National Railways.

The locomotive weighs 65,000 pounds with its equipment. It has 48,000 pounds of which are carried on the driving wheels. Each unit consists essentially of an oil engine generator set, motor, boiler, and steam heating of passenger coaches, four traction motors for propelling the locomotive airbrake and other auxiliary equipment.

The power developed by the oil engine is converted into electrical energy by the generator, transmitted to the traction motors geared to the driving axles, where it is utilized in developing traction effort and speed. With this power, which was laid out for high speed passenger service, the locomotive will develop a tractive effort of 100,000 pounds during the accelerating periods. This compares with a tractive effort of 65,000 pounds developed by the largest steam locomotive now in use on the lines of the company in Western Canada.

## Carries Much Fuel

The power carries approximately 8,000 pounds of fuel oil, 11,000 pounds of boiler water, 3,000 pounds of engine jacket cooling water, 1,000 pounds of engine lubricating oil and 3,000 pounds of sand. The supply of oil will be sufficient for operation of the oil engine and the oil-fired heating boiler, operating under average conditions, for twelve hours. The supply of boiler water will be sufficient for heating a train of average length for periods of from six to twelve hours, depending upon outside temperature. The locomotive will handle the heaviest passenger train at a high schedule speed.

The power plant contained in the locomotive is sufficient to furnish energy for lighting a good-sized community while the heating apparatus, which will provide comfortable temperatures in the cars even in severe weather, could heat a large modern apartment.

The inspiration and the design of the locomotive originated with motive power engineers of the Canadian National Railways. The oil engines were supplied by the William Beardmore Company, Limited, of Glasgow. The electrical generators, motors and auxiliary electrical equipment were supplied by the Canadian Westinghouse Company, Limited, of Hamilton, Ont. The cabs and running gear were built and assembled on the frame by the Canadian Locomotive Company, at their works in Kingston, Ontario.

## Two Steps Too Many

During a sham fight a regiment got lost in a thick mist, and it was late in the afternoon, after a long march, that the men were found in a town 12 miles from the barracks. The commanding officer halted the battalion in the square and said:—"Men, I would like to push on to Headquarters, but will only take those that volunteer. Who wish to stay here for tonight, to step backward march." All moved except one. "Well, Private Smith, I am proud to think that you are still willing to march twelve miles," said the C. O. "Twelve miles!" replied the soldier, "I cannot take two steps back."

## Calf-Feeding Competition

Thousand Calves To Be Distributed To Boys and Girls In Central Saskatchewan

A Mammoth Calf-Feeding Competition has been organized by the Saskatchewan Exhibition, the Board of Trade and livestock organizations, with the co-operation of the Federal and Provincial Government and Agricultural Societies. A thousand calves have been purchased from the famous Ross Ranch in Alberta, to be distributed to boys and girls in Central Saskatchewan in lots of five, three and singles. Prizes totalling \$5,000 will be distributed at the end of a six months feeding contest; (a) for the greatest gain per head per day; (b) for quality and finish irrespective of gain; (c) for the best record of feeding. The show and auction sale will be next June, and the competition is already interesting buyers from all the larger markets in the United States and Canada.

## Fame Spreads To Mexico

Record Of B.C. Hen Attracts Attention Of President Calles

Even Mexico has heard of the cockle of Hen No. 8, the world famous egg layer of the University of British Columbia, which shattered all records for production.

Two personal envoys of President Plutarco Elias Calles, have been in Vancouver negotiating for the purchase of several pullets of the Hen No. 8 strain and they will be used as part of the foundation stock which President Calles is establishing on the presidential stock farm.

Now that Senor Calles is retiring from the presidency, he will devote all his time to his farming interests and his farm will be a sort of experimental station from which the farmers of Mexico will receive their guidance. There will be more than 6,000 birds located here.

## LONG SLEEP MAKES

## BABY HAPPY AGAIN

"Our baby kept waking up several times a night, until we started giving him a little Castoria after his last nursing," says an Iowa mother. "He slept soundly from the first night and it made him look so much better." Baby specialists endorse Fletcher's Castoria; and millions of mothers know how this purely vegetable, harmless preparation helps babies and children, with colic, constipation, colds, diarrhoea, etc. The Fletcher signature is always on the wrapper of genuine Castoria. Avoid imitations.

Sixteen submarine cables, linking up all parts of the world, are joined to the Azores, where the cable exchange is nicknamed the "Charing Cross of the Atlantic."

A baby kangaroo is not much bigger than a man's thumb.

## PRINCESS ELIZABETH

The daughter of the Duke and Duchess of York, Princess Elizabeth, whose most recent photograph is shown above, is at present third in succession to the throne of England.

## SUNDAY SCHOOL LESSON

DECEMBER 9

## PAUL GOES TO ROME

Golden Text: "I am not ashamed of the gospel: for it is the power of God unto salvation to everyone that believeth."—Romans 1:16.

Lesson: Acts 27:1-28:31; Romans 1:8-14; Philippians 1:23-24.

Devotional Reading: Psalm 91:9-10.

## Explanations and Comments

The End Of The Journey To Rome, verses 11:15.—Three months after the shipwreck of the island of Malta, when navigation began in the early spring, Paul and the rest of the company set sail in a ship from Alexandria called "The Twin Brothers" from the sign painted on its prow. They stopped for three days at Syracuse, on the island of Sicily, and for a day at Rhegium, on the Italian coast. Finally, the corn mart of Italy, on the Bay of Naples, was the destination of the ship. There a week was spent. News of Paul's coming to Rome reached the Christians there, and two companies journeyed over the Appian Way to meet him, one coming as far as the Market of Appius, forty-three miles from Rome, and the other to the Taverna, an inn, ten miles from Rome. Their coming greatly rejoiced and encouraged Paul: he thanked God, and took courage.

"It was midway between a shipwreck and a prison: Paul has been in peril of his life, and he was going to greater peril. He had barely escaped the storm to fall into the hands of Caesar. In this and a tight, a little group of Christian brethren in Rome, having heard that Paul was chained, came out to meet him; and his heart filled with gratitude. When he saw them he thanked God and took courage. Thus it may be that they who have lost almost everything, count up the gifts of God which still remain and are surprised to find them so many and so precious. They appreciate them the more highly for their fewness. Some people have so much to be thankful for that they are not very thankful for anything."—George Hodges.

## Demand For Reward Wheat

Orders For Early Maturing Variety Are Greater Than Can Be Filled

Inquiries for Reward wheat, one of the new early maturing varieties which has been evolved by the cereal division of the experimental farms in the past few years, are pouring to Ottawa and already are greater than can be filled. Reports recently have been circulated that 25,000 bushels of Reward will be available for distribution. This is not true. The cereal division will have 10,000 bushels and the 350 growers who were allowed to grow Reward will have a surplus of 2,000 bushels, making 12,000 bushels all told.

## Counterfeit Money

Attempt Is Made In Winnipeg To Pass Spurious Bills

Winnipeg city police are attempting to locate what is believed to be an organized gang which is flooding the city with spurious money, mostly United States bills of \$20 denomination.

Business men, merchants, banks, commercial firms and citizens are warned to scan money passing through their hands closely, as the money bears an almost perfect resemblance to the genuine article.

One \$20 counterfeit bill is now in the hands of the authorities, while efforts are being made to procure others of the same type which are said to have been brought into the city in large numbers. This bill bears a picture of Grover Cleveland, former United States president, and a spurious signature of A. R. Mellon, secretary of the United States treasury.

## Outstanding Wheat Crops

Some Big Yields Are Reported From Alberta

One of the outstanding wheat crops of the season is reported from Col. Fry's farm at New Dayton, Alberta. On a quarter section—160 acres—a wheat crop averaging 63 bushels per acre was harvested. The crop graded No. 1 Northern. Another big crop is reported from the Western Transfer Company farm, northeast of Lethbridge, where on 160 acres an average yield of 51 bushels per acre was recorded.

## Winnipeg Newspaper Union

## For Modern Youth

Paris created this chic blouse for young and youthful type of woman. It has distinctive band trimming, which provides unusual scheme for color and fabric contrast. It is cut from neck at centre-front and bound and finished for closing, but if desired, can also be closed on left shoulder. The applied neckband is finished with tall tailored bow, which treatment appears on applied front bands that form chemise. Two parts to pattern! The upper part of slashed edges at each side of front and back are gathered and joined to lower part, to achieve full hipline, and slight blousing at bust. Style No. 343 is designed in sizes 16, 20, 24, 28, 32, 36, 40 and 42 inches bust, and takes but 1 1/2 yards of 40-inch material with 5/8 yard of 36-inch contrast for 36-inch size. Beige jersey with brown, two tones black in blue or new green, black and white hame, caramel crepe satin novelty silk crepes and georgette crepe in scarlet red with black sheer velvet, are ultra-smart. Pattern price 25 cents in stamps, or coin (coin preferred). Wrap coin carefully.

## Our Neighboring Planet

Investigations Reveal Fact That Mars Has Many Points Of Resemblance To The Earth

Recent investigation seems to have put beyond doubt the fact that Mars, notwithstanding important differences in volume, mass and distance from the sun, presents many points of resemblance to the earth. Its day is but forty minutes longer than ours; its axis is inclined to the plane of its orbit by very nearly the same amount, so that it enjoys the same succession of seasons as our world does. The Martian atmosphere, though rarer than ours, may not be so dissimilar as at one time seemed probable, for it contains oxygen and water-vapor, and the temperature is not very much lower than the temperature of our own world. There is vegetation on Mars is indisputable; that animal life exists is probable, and it is not beyond the bounds of possibility that animal life has culminated in a race of intelligent beings who are, as Lowell believed, "in advance of and not behind us in the journey of life."—Dr. Hector MacPherson, F.R.S., in the Contemporary Review.

## Santa Claus On The Wing

Will Use Aeroplane To Do Some Of The Work This Year

Even Santa Claus has at last yielded to the demands of modernity and is going to use aeroplanes to do some of his work this year. Whether the jolly old gentleman has decided to abandon his time honored sleigh and gallant reindeer for the more up-to-date method of travel because of the increasing demands made on him, is still an undecided question. The fact is the aeroplane has evidently caught his fancy and he is going to do a good deal of his work in Western Canada this year on the wing, so to speak. The Canadian Post Office Department announces that an air mail service will commence on December 10th, and continue until December 20th, between Winnipeg, Regina, Calgary, Edmonton and Saskatoon.

It is expected that thousands of Christmas letters will be carried by this new air mail service, which is being introduced at a time when the facilities of the post office are taxed to the utmost and the popular demand is for more speed in the conveyance of mails.

## Man Not a Machine

A man is not entirely a machine. At some given moment, for no explainable reason, his brain may not function normally. It is a thing that happens to all of us. The difference is that in the case of a man engaged on ordinary work, the consequences may have only the slightest seriousness. With an engine-driver, a signaller, or some other railway servant, the consequences may be terrible.

## Favor All-Metal Planes

The Air Ministry has decided that in future all Royal Air Force planes will be built of metal instead of wood. A new revolutionary method of constructing planes' wings, has been discovered as the result of experiments with a monster 350-foot wing spread monoplane "inflexible" at Croydon airfield, it has been learned. The plane will carry ten tons of bombs.

## Saskatchewan Wheat Pool

The Saskatchewan Wheat Pool Country Grain elevators to the number of 940 in the province handled up to November 15, 1928, since the opening of the crop season, 88,862,000 bushels of grain compared with 64,281,000 bushels last year, an increase of 34,071,000 bushels.

Toronto, Ont.

### CHAPTER VIII.

One calm Sunday morning Donald paddled across the lake to try the fly at the mouth of the small creek which flowed past the trapper's cabin. The clear water was as smooth as glass and the trout refused to be lured from the depths. After casting steadily for fifteen minutes without a rise, he sat down to enjoy a smoke. Sounds from afar came with surprising clearness through the quiet air. Andy was splitting wood outside the cabin door, and the sound of his axe and the words of his song brought a melody of returning thoughts. A lone gale, black, wild ducks of many varieties shifted their positions with a whistling rush of wings. The "cheery cheery" of a flock of chickadees sounded from a cove of willows on the creek bank. The warmth of the morning gave promise of a hot day when the sun should reach the zenith. A breath of cool air rippled the lake's surface, bringing with it the faint rumble of a waterfall high up the mountain-side. Donald paddled to the shore, crossed the rustic bridge to where the trapper was working in his garden, and sat down on a convenient stump.

"Good-morning, John."  
"Mornin', ol' timer."  
"John, is there a waterfall on the big creek?"

"Yes, I've heard 'em, an' I've seen 'em from the ridge, but I ain't ever bin close to 'em."  
"Do you think there would be any fish at the foot of the falls?"  
"Couldn't say ol' timer. It ain't never bin fished."

To the disciples of Isaac Walton the expression "never been fished" brings an incomparable thrill. To cast a fly on virgin waters is the acme of bliss to an angler. Donald unloosed his rod, slung his basket over a shoulder and started toward the trail.

"Ye better let me fix ye up a lunch to take along," the trapper shouted after him.

"Good suggestion," admitted Donald as he retraced his steps. Fried eggs placed between slices of snow-white bread, fresh doughnuts, cake and cheese were quickly prepared by the deft hands of the old trapper, and Donald was again on his way.

He tried to follow the stream, but the sides were so precipitous that he was forced to climb to the ridge or "hog-back." Here he found the walking excellent, as there was no underbrush and the ground was covered with a soft moss.

At intervals through the park-like pines he caught the glint of running

## MEDICINE FOR YOUNG GIRLS

Mothers Endorse Lydia E. Pinkham's Vegetable Compound

Sydney, N. S.—"My seventeen year old daughter took Lydia E. Pinkham's Vegetable Compound for weakness and pains. She could not go about much with the other girls as she was not strong enough. We got six bottles and it did her a great turn. She was lying out now in a store and walks three miles every morning and back in the evening."—Mrs. MARY YANCEY, 44 Lingan Road, Sydney, N. S.

Pinewood, Ont.—"I constantly had pains in my back and side and spent two days in bed every month. I have taken three boxes of Lydia E. Pinkham's Vegetable Compound Tablets. They have done me good and I always have them in the house. I have recommended your good medicine to several friends and have given it to my 17 year-old girl."—Mrs. ALFRED DUNLIS, Pinewood, Ontario.

W. M. L. 126

water in the gorge below. The air was warm, but the gentle sphyres wafted from the glacial stream brought a coolness that was almost chill. The sound of the falls became louder as he climbed higher, increasing to a trembling roar as he came to the edge of a boulder-strewn precipice. Here there met his gaze a tumbling cascade of water, falling from a cliff to an iridescent pool sixty feet below.

Donald scrambled and slid to the lower level, only to find that he would have to walk down stream and wade up in order to get within reach of the pool. By leaping from rock to rock he managed to reach a flat ledge near the side that allowed him perfect freedom for casting. The spray reached him in the form of a fine mist that felt grateful after his exertions. A shaft of brilliant sunshine, looking like a searchlight here it penetrated the heavy mist, was reflected and refracted to form a rainbow that shone resplendently against the dark wall of the canyon. On each side rose a sheer wall of rock, with here and there a small air or spruce clinging to fissures where sufficient earth had accumulated to give it nourishment. At the point where the cataract struck the pool there was a mass of heaving, foaming water that spread in ever lessening waves to become gentle ripples lapping softly on the shores.

The little birds known as water-cuculi, or dippers, were in their element. Standing on the rocks around which the turbulent waters roared, they bobbed and curtsied, then flew in under the waterfall to their nests in the damp niches of the rocks. Far across the lake a speck of the azure sky, a bald eagle circled and soared. Over all was the thunder of the cataract drumming in Donald's ears and giving to the earth a gentle tremor.

He began eagerly to join his rod, attach leader and flies, and under his landing-net. "There he is," he said when he had completed the task, "I'll just throw that in to soak while I have a smoke."

He cast carelessly, laid the rod down and reached for a cigarette. "Be-r-r-r!" the rod shuddered madly. He made a wild clutch for the rod, retrieving it just as the tip entered the water. A big rainbow trout leaped into the air with a flash of prismatic colours, and made that graceful curve that is so pleasing to the fisherman's eye. The five-ounce rod, which he had checked the trout's rush. Then the line slackened as the fish turned and came toward him with incredible speed. He reeled frantically to take in the slack line. Once more the game trout turned and the line was singing with the reel. When it went straight down and in the pellicled depths he could see it lying near the bottom with tail and fins moving listlessly. Slowly he reeled in the line, bringing the fish nearer and nearer. Donald leaned forward, and with a quick ript of its tail the trout shot to the surface, sending a shower of spray in his face. Then, leaping and dashing—the reel singing merrily—it crossed the pool with renewed energy. Donald watched the whirl of the reel ceased and the rod was jerked from Donald's hands—a detested "back lash." In other words, the line had tangled at the reel. The slender rod was bent nearly to a circle.

"It won't stand it," muttered Donald in a fever of excitement. He lowered the rod slowly to relieve the strain on the tip, all the while working desperately to free the tangle. Snap! The fish with a tremendous tug parted the leader, and with one last triumphant leap to flout its brilliant colours, it disappeared.

It is universally understood among the angling fraternity that when a fish is lost under such conditions the Recording Angel turns her head. In an hour the cold spray from the glacial water had dampened Donald's clothing and numbbed his fingers. The basket by then being nearly full, and his wrist lame from casting and playing the fish, he decided to quit. As he climbed the ridge the air above felt like a breath from an oven in contrast to the atmosphere of the canyon.

Through a tall, stately grove of pines Donald descried an open glade whence came the sound of running water. He walked through the dark aisles of towering trees, his feet making no noise on the thick carpet of soft needles. Pushing aside a growth of low deciduous trees that fringed this open passage in the woods, he gazed upon a scene that held him entranced. At some time in the earth's remote history moving ice had gouged out this tiny valley and left a rich deposit of glacial silt. A small mountain stream cascaded from a moss-covered cliff to fall from ledge to ledge and flash crystal clear and sparkling through the vividly green grass and bright flowers which formed the carpet of the valley floor. The

brilliant columbine, interspersed with the yellow marigold and dandelion, made bright patches of colour. Wild roses hung in masses in the border of low green shrubs. The white rein orchids grew in rank profusion everywhere, filling the air with its delicate perfume. Ferns and cotton grass grew to the very edge of the limpid brook that prattled musically over the moss covered stones. A rabbit with her young nibbled at the tender grass roots at the far side of the creek. Humming-birds buzzed back and forth and a blue-jay—the Paul Fry of the woods—peered curiously down at the interloper, with its head moving from side to side and its beady eyes shining. Then with a startled shriek it flew across the glade—like a streak of blue in the sunshine—to hold excited colloquy with its mate. A willow grouse sailed from a cliff above to land with a great preening of feathers and move with a peculiar gliding run to the shelter of a stand of tall bushes.

Near the centre of the field was a "fairy ring" of mushrooms about twelve feet across. The beginning of these rings may be a single mushroom which drops its spores in a circle about its base. The next season a smaller ring of mushrooms grows a larger ring of spores, and so the circle expands year by year, exactly as the ripple spread out on the surface of a pond when a stone is cast into the water.

Some fairy rings have been estimated to be six hundred years old. Legend informs us that these rings are magic circles within which elves and other nimble folk hold their revels at midnight. There is another superstition that the rings mark the spots where bolts of lightning have struck the ground.

"A fairy-land" breathed Donald as he stepped into the open.

It was warm, but now and again a breeze, that had swept between snow-capped peaks, dropped down into the valley and made the pines sway and the willow and alder and maple rustle. At the time of these visitations Donald threw back his head and drew in deep breaths of the flower-scented breeze.

Making his way to the foot of the tiny falls Donald seated himself on a soft bed of moss and proceeded to eat his lunch. Two birds, of the species known as "camp-robbers" or "whiskey-jacks," dropped ghost-like from nowhere and eyed him reproachfully. He threw them a crust of bread. There was a shrill cry like that of a hawk that sent the feathered visitors in terror to the safety of the trees, and a flash of blue landed on the bread. With a chuckle, almost human a bluejay flew to the top of a spruce to enjoy his meal at leisure.

Donald's happy laugh rang throughout the sylvan glade and was re-echoed mockingly from the cliffs, the camp-robbers emerged from their retreat looking rather crestfallen. They took no chances with the crust thrown to them the second time. Each seized a generous portion and retreated hastily.

Donald selected a soft spot in the shade of a small grove of cedars, stretched himself at full length on his back, and lighted a cigarette. The sound of murmuring waters, the rustle of leaves, the gentle sighing of the pines, and the fragrant, balmy air that fanned his face held a soporific influence. He watched a fleecy cloud floating far above the tree-tops in the ethereal blue. A long-tailed vireo, of the white throat and white eye lines, sang joyously from a tree nearby. Donald's eyes closed slowly, and in

a moment he was in a dream. As though in a dream he felt something brush his face and he shook his head. An instant later the tip of a cedar bough fell fairly on his face. He brushed quickly with his hand, as though to dislodge a fly. A larger branch fell with a gentle swish to land on his nose. This time he opened his eyes and plucked the branch from his face, noticing as he did so that it was freshly broken. "Odd," he thought, and lay with eyes half-closed to detect the cause of this singular occurrence.

Near the top of the four small cedars under which he lay there seemed to be a nest-like thickness. There was a movement in the tops of the trees, and Donald's amazed eyes saw a little brown hand steal forth holding a cedar tip. Then a small childish face appeared, surrounded by a mass of lovely golden hair. The face was one of sheer, exquisite beauty, marked by a pair of wide, roguish blue eyes, as blue as pansies, a small pensive mouth that formed a cupid's bow, and an impudent little nose dotted with freckles. As the slender hand touched the branch, Donald's astonished eyes looked up directly into the blue ones looking down on him so full of mischief. There was a startled gasp and the golden head disappeared amid a great swaying of branches. Donald came slowly to his feet, rubbing his eyes. Was this a fantastic dream, or had he actually seen a child's face? He looked at the branches on the ground, and again his eyes sought the tree-tops. He could now see that some sort of big nest was built within the tops of the four small cedars.

"Hello," he ventured. A slight rustling of the branches followed, but no answer. "Hello, wood-nymph!" (To Be Continued.)

## A LAUGHING BABY IS A GREAT JOY

What can give more joy in the home than a laughing, happy baby. The well child makes everyone happy with its tuneful gurgle and bright laughing eyes. It is only the sickly baby who is not a laughing baby, for it is the little one's nature to be happy when well.

Mothers, if your baby is cross, if he cries a great deal and no amount of attention seems to make him happy, give him a dose of Baby's Own Tablets and he will soon be well and ready to do those things which make baby happy and keep him happy. Baby's Own Tablets are a mild purgative for babies. They regulate the bowels and sweeten the stomach and thus banish constipation and indigestion; break up colds and stimulate and correct those troubles which accompany the cutting of teeth and in doing those things—and doing them well—they make baby happy and keep him happy. The Tablets are sold by medical dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**Japs Build Sub-Destroyer**  
Speedy Ship Perfected Which Catches U-Boats in Net  
Submarines have always been a great deal of trouble in time of war. They have the habit of sinking ships at the wrong time and in the wrong place. Convinced of the necessity of inventing some other monster of the deep that will put the U-boats out of commission, Japanese mechanics have been working on the problem for some time.

It has been announced that such a ship has been perfected and two of these are now under construction, one in Osaka and the other in Yokohama. They ought to be ready for service before the end of the year.

Nothing is said of the principle behind the invention other than that it is a small ship, capable of more than 30 miles an hour and equipped with nets which catch submarines "just as we catch fish."

**Does Farming Pay?**  
Alberta Farmer Produced Five Times the Value Of His Land From First Crop  
It is not often that a piece of Alberta land will produce five times as much in the first year as it cost, but that is what happened to a farmer in the Wrentham District this year. In 1927 he bought a quarter section of land for \$1,400, on time payments. He summer-fallowed 105 acres and last spring he plowed 45 acres more. His 150 acre field of wheat yielded 7,100 bushels worth about \$7,000.

**Had Strange Hobby**  
Miss M. L. Edgerton, a Negneg, Wis., recluse, died and among the antiques she left were 100 sewing machines. They sold for sixteen cents each at an auction. She made a hobby of sewing machines and organs. A few of the latter sold for as little as seventy-five cents.

## British Boy Wins Honors

Makes Record Score For Stock Judging At Toronto Winter Fair  
Sydney Wrightson, 18 year old former British mine messenger, was honoured with special mention by Rt. Hon. W. L. Mackenzie King, Prime minister of Canada, when addressing a Dominion-wide gathering of farmers at the opening of the Royal Winter Fair at Toronto recently, for capturing the highest prize and making record score for stock judging for County of Frontenac, Ontario. One year and a half ago Wrightson was working as a mine messenger in England. He had never been on a farm but was attracted to Canada and got employment on a farm near Kingston, Ontario. This year he won the highest place in his County for judging wheat, oats, barley, corn and livestock.

Dominion honors for boys and girls  
Swine Judging Clubs went to Alice Fear and Katherine Coyer, two 17 year old girls, both of Prince Albert, Saskatchewan. They ranked higher than any other entrants of either sex in the Dominion-wide competition.

**Turbine Taken North By Plane**  
Illustrating the importance of aeroplanes in mining development in Manitoba, Col. L. D. M. Baxter, managing secretary of the Manitoba Chamber of Mines, told the Vancouver meeting of the western branch of the Canadian Institute of Mining and Metallurgy of an instance where a new turbine had been taken to the Flin Flon property by air, thereby saving many weeks of delay.

## Little Helps For This Week

"The Lord shall give thee rest."—Isaiah xiv. 3.

The human tide goes rushing down to death;  
Turn thou a moment from the current broad  
And listen.—What is this the silence saith,  
O Soul! "Be still, and know that I am God."

The mighty God! Here shalt thou find thy rest,  
O weary one! There is naught else to know,  
Naught else to seek—hence thou mayest cease thy quest;  
Give thyself up; He leads where thou shouldst go.

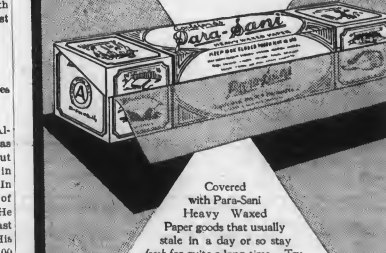

—Celia Thaxter.  
O God! Thou has made us for Thyself, our souls are unsatisfied, and are unquiet in us; there is emptiness till Thou dost communicate Thyself, till we return unto Thee, Self-denial, self-surrender, devotion are Thy injunctions upon us, not for Thy sake, but that we, who are empty, shallow, insufficient, may go out of ourselves, and find in Thee fullness, satisfaction, and abundance.

—Benjamin Whitecote.

Minard's Liniment for Chapped Hands.

Still Aggressive  
The meek little man was walking back from the funeral of his big and masterful wife. Suddenly a dislodged slate whirled down and landed with a resounding crack on his head. "Goosh," he murmured, looking up. "Such must have reached heaven already."

**Foods Stay Fresh Longer This Way**

Covered with Para-Sani Heavy Waxed Paper goods that usually stale in a day or so stay fresh for quite a long time. Try it. Get Para-Sani in the handy, sanitary, knife-edged carton at grocer, druggist or stationer. For less exacting uses get "Centre Pull" Packs in sheet form.

## Here and There

**More than 11,000,000 tourists visited Ontario during 1928 and spent about \$100,000,000 according to figures issued at the Provincial Parliament Building in Toronto the other day. This is an increase of over 20 per cent. over the record made last year.**

**Production of tobacco in 1928 totalled 40,976,315 pounds from 43,138 acres. Of the total output the Province of Ontario accounted for 22,265,850 pounds from 32,454 acres; Quebec 8,546,325 pounds from 10,368 acres, and British Columbia 164,200 pounds from 118 acres.**

**Ethel Catherwood, who distinguished herself as an athlete representing Canada at the Olympic games in Amsterdam in August, has been honoured by the Canadian Pacific Railway. A station on the recently constructed Rosetown-Pelton branch has been named "Catherwood," after her.**

**Twenty-five years ago Thomas Hubert, now employed as a baggage man on the C. P. R. between Ottawa and North Bay, lost a valuable silver watch while working in a field near Pembroke. The other day a glittering object was turned by a plough. It was Hubert's watch, the glass broken and the hands gone, but still retaining a brilliant lustre. The field had been ploughed many times since it was lost.**

**Toronto is preparing to receive the largest number of prominent baseball figures ever to be in Canada at one time. The National Association of Professional Baseball Leagues will meet there shortly and every baseball club in America will be represented. Judge Landis will be on hand, and the total attendance is expected to amount to over five hundred, delegates coming from points as far as Pueblo.**

**The trainload of artificial snow that was brought from Hollywood to Lake Louise recently was not required by John Barrymore, in producing an Alpine movie story to be released shortly, as plenty of the real stuff was available at the glaciers. This popular actor, with Camilla Horn and a cast of about twenty-five persons, spent some three weeks at the Chateau Lake Louise, rising each morning at four o'clock in order to reach their "locations" on Victoria and Saddleback Glaciers in time to get the best light effects in the morning for their various "shots".**

**When a young couple from Calgary drifted back to the station at Winnipeg 10 minutes after the "Imperial" had left for the east, Canadian Pacific officials were given the choice the other day of feeding and otherwise caring for a nine-month-old baby for two days or holding the train for thirty-five minutes at North Transcona. They chose the latter, much to the relief of the porter and conductor who are not family men. The reunited family sailed on the "Montrose" to spend Christmas in the old country.**

**"I can say, without any hesitation, that Canada is the best country in the world for farming at the present time. It has greater possibilities, and there are indications that there is greater stability and prosperity than can be found in any other country," said Dr. E. S. Archibald, director in charge of the Dominion Experimental Farm at Ottawa, addressing the Young Men's Canadian Club in Montreal. Dr. Archibald said the crops in Canada are worth \$1,167,000,000, which alone was equal to the fisheries, mines and forests all put together.**

**The province of Alberta generally will receive more game fish than ever before, was the opinion of J. A. Robb, superintendent of fish culture of the Department of Marine and Fisheries, who was a recent visitor to Calgary. The whitefish hatchery just opened by the Dominion Government in Lesser Slave Lake, will help the commercial fisheries, he said, while sport in the neighbourhood of Banff, the Rocky Mountain resort, will be greatly improved by the advanced fry and fingerling game fish that have been placed in the streams. The hatchery at Banff, he added, will be extended slightly.**
